

REPORT ON YAJNA

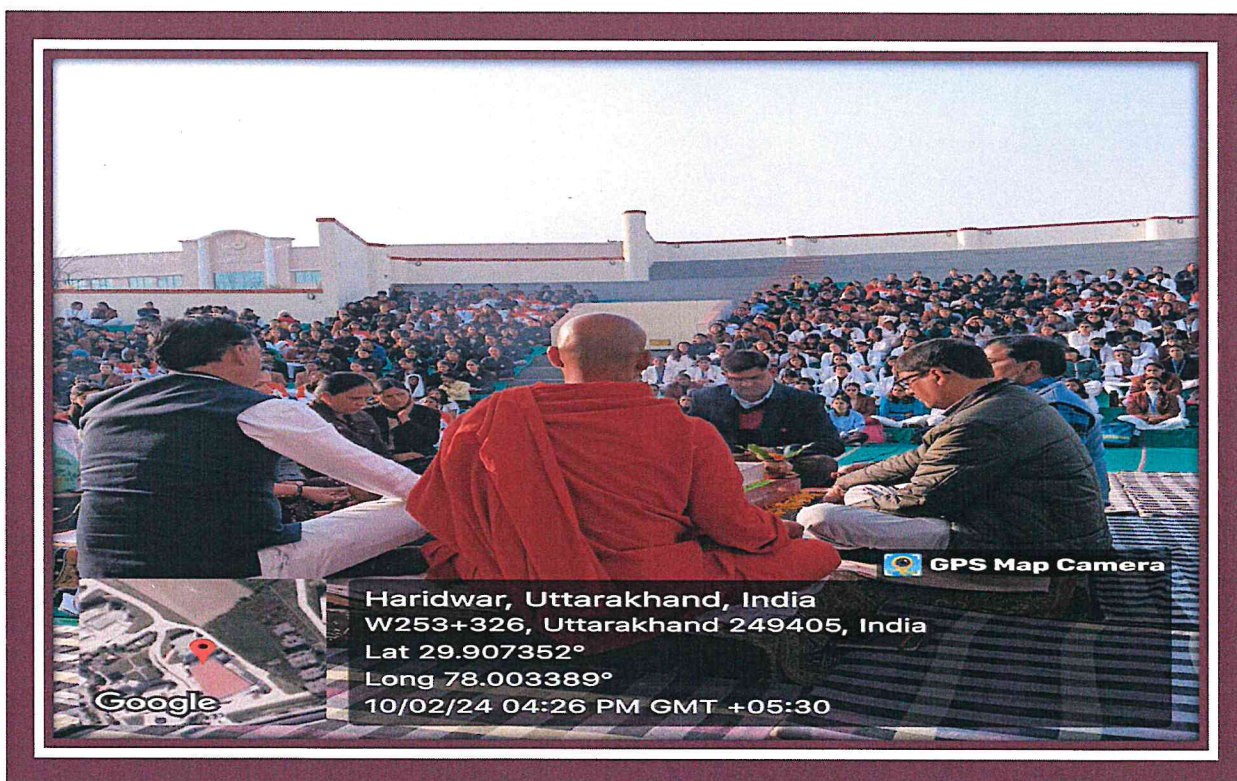

February -10th February, 2024

Yajna is an age-old practice that strengthens mental wellness. The idea of yajna clarifies how the human spirit is connected to the highest force. From a spiritual perspective, the role of yajna in education aids students in carrying out their everyday responsibilities. Self-awareness or self-realization is improved by it. It reveals spiritual and mental qualities. It strengthens one's resolve. Students who practice yajna can profit greatly from several physical advantages in addition to spiritual upliftment. On February 2, 2024, the department arranged a mass yajna. All deans, heads, professors, proctor and students were present in the holy yajna. The students of the psychology department actively contributed to various types of activities in the yajna. the students played an important role in rangoli decoration and singing. At the end of the yajna, a lecture was given to all the students and faculty members on the greatness of Veda religion by the honorable Pro-Vice-Chancellor. The potographs of the event is attached with this report.
