

7.1.8 CULTURAL, REGIONAL, LINGUISTIC AND COMMUNAL HARMONY

The Principles, Policies and Morals of University of Patanjali are free from any kind of discrimination, favouritism, and partiality. We treat everyone in the university as equals' and as the children of "One *Ishwar*", "*one Prakriti Mata*" and "*Bharat Mata*". Therefore, with this belief, the children live in an environment free from discrimination based on caste, language, region, religion or culture. Wherever the students of UoP are headed, they go free from discrimination, exploitation, or injustice and thus, behave according to the principles and ideals instilled in them. The students studying in this University are from all regions, states, religions, castes. The Hon'ble Chancellor and Vice-Chancellor, whom the children consider their ideals, have placed tolerance and harmony at the National and Global level as well.

We, at University of Patanjali and Patanjali Yogpeeth Organization, do not have any kind of communal objectives and are free from any kind of polarization. To make healthy, wealthy, happy, prosperous, cultured and spiritual India and a 'Spiritual world' is the ultimate goal of University of Patanjali and Patanjali Yogpeeth Organization.

SELF-CONFIDENCE AND MOTIVATION

The eminent principle of yoga is self-realization, self-confidence, self-motivation, self-competition, self-inspiration, self-respect, self-feeling and collective realization. Our students study and practice this yogic lifestyle on regular basis.

The University has three basic directives:

1. Practice of Yoga (*Yogabhyas*)
2. Education (*Vidyabhyas*)
3. Practice of Divine Vrat (*Divya Vrat abhyas*)

Such atmosphere is created that the student's conscious and subconscious minds are instilled with knowledge, vision, opinion, thoughts and actions. The leaders and *Gurus* of the organization are the main source of self-motivation, self-inspiration, self-confidence, self-competition and thus, they are the role models and icons for the students as well as the faculty members.

We strongly believe that right intellect, devotion, creation, character and culture are the path of progress. This is the education and knowledge given to the students', theoretically and practically and all dealings in the organization are performed accordingly.
