Post Camp:

After all the camps data was collected. A report detailing the vital data measurements and the number of participants was generated. Common health issues like fever, constipation indigestion, skin disorders that were identified during the camp were analyzed to help prioritize future initiatives.

Result and Impact :

Each Students/Villager/Worker received personalised health advice and recommendations, empowering them to make positive lifestyle changes. Feedback from the all beneficiary members was overwhelming positive, with many expressing gratitude for the free service and opportunity to learn more about yoga and nature cure. There are 2,203 beneficiary in 10 camps.

Conclusion :

The free health checkup camp organized by naturopathy students and doctors for all the above camps proved to be a resounding success . It not only provided valuable health assessments but also instilled a sense of awareness and responsibility regarding one 's own health . The camp 's impact on the physical and mental well - being of the participants highlights the importance of holistic approaches to health and the benefits of natural therapy such as hot foot bath, hot and cold compression , accupressure, yogic breathing and postures, meditation, Diet etc. Such initiatives should continue to be encouraged to promote a healthier and happier community.
